About Me

Skilled Computer Science undergraduate with a background in Data Science and experience building software applications using Python, React and other languages. Possess a strong analytical mind honed through data analysis projects using Python and Microsoft Power BI, coupled with a keen eye for design. Eager to leverage my combined skillset in data science, software engineering and graphic design to contribute to innovative solutions in the tech industry. I'm looking for opportunities to collaborate, learn from industry professionals, or work with innovative technologies that can shape the future.

EXPERIENCE

Data Analyst
MeriSKILL Internship l India · Remote
December 2023 - January 2024

As a Data Analyst Intern at MeriSKILL, I raised data quality using advanced cleaning techniques. I performed statistical analyses to uncover trends in user actions. I also developed Power BI models for data Visualization.

Graphic Designer
Freelancer.com and Shutterstock
2017 - 2019

As a Graphic Designer on Freelancer.com and Shutterstock, I concentrated my energies in creating attractive designs for several clients at the same time. With stock assets from Shutterstock, I designed imaginative images customized to the needs of your brand or a project's unique requirements.
